

# MILAGRO SKIN REFINER

Regenerate | Renew | 100% Natural | Minimally-Invasive/No Trauma or Injury  
Cutting-Edge Innovation | Gentle and Safe | Intensive Treatment | Instant Results

Milagro Skin Refining is an advanced Skin Treatment Technology which is customized to suit any skin type and condition. The active ingredients of products being used during the treatment are released deep down into the dermis to target the signs of aging, with up to 1000% more absorption of products.

The Milagro Skin Refiner more effectively boosts the active ingredients and stimulates collagen and elastin to refine the damage of sun, dehydration, hyperpigmentation, poor skin texture, uneven skin tone, wrinkles, dyschromias, scarring and acne conditions.

## SAFE

The Nano chip is made of the highest purity (99.9999%) Mono-Crystalline silicon. It has excellent bio-compatibility with the skin. The Nano Needles are so fine and flexible that they are able to perforate the top layer of the skin without damaging it. The nano perforations close in within a few hours after the perforation as the effected skin cells go through a natural healing process.

## RESULTS

In terms of absorption enhancement, Milagro Skin Refiner is the only non-invasive treatment which acts more effectively than other “needling” treatments, as it does not tear, traumatize or damage the skin. It feeds your skin nutrients, rather than forcing them in with invasive and damaging implements and treatments.

## TREATMENT AREAS

Can be used on face and including eyes, neck chest, back.  
Also any area with a scar wanting improvement.

## TREATMENT MAINTENANCE

For optimum results, it is recommended to begin a course of 4 weekly treatments, followed by 1 treatment done every other week for 4 weeks and 1 maintenance treatment once every 4 to 6 weeks thereafter.

It is as important to follow a professionally recommended skin care regimen using chirally correct skin care products

## INVESTMENT

Price per session: \$107

If paid in full on first visit of 8-session series: \$775

Should you not want to participate in entire series, you will still have results from one session! It is a good alternative to continue having your skin treated and not too used to one treatment.
